EXPERIENCE

Business / Data Analyst (Self-Employed)

Nov'23 – Present

- Collaborated with clients to identify key business challenges, perform data analysis, and develop customized dashboards and reports that enabled clearer performance tracking and data-driven decision-making
- Leveraged AI-assisted tools to build automation projects, develop websites, conduct analysis and research, and rapidly prototype data visualization applications — reducing delivery time while maintaining tailored, client-specific functionality
 - o Industries Served: Financial Services, Non-Profit, Food & Beverage, Manufacturing, Property / Real Estate
 - o Tools Used: AI-assisted tools (Claude, ChatGPT, Lovable), Power BI, Looker Studio, Tableau, Google Sheets (Query), Google Apps Script, Microsoft Excel

GudangAda - Product Manager II (Jakarta, Indonesia) - Supply Chain

Oct'22 – Nov'23

- Implemented efficient purchasing process by optimizing the entire procurement workflow, from purchase request creation to timely issuance of purchase orders
- Optimized GudangAda's Warehouse Management System (WMS) to streamline warehouse operations processes, including inbound, outbound, stock opname, and stock transfer, resulting in improved efficiency and effectiveness
- Improved fleet productivity by approximately 30% through enhanced routing and planning within GudangAda's Transport Management System (TMS), leading to reductions in fleet cost

Anteraja – Product Owner (Jakarta, Indonesia)

Jan'21 – Apr'22

- Designed and led the development of referral program that had contributed to ~18% of total newly registered users within the first month of the program launch
- Implemented maps improvement initiatives which reduced average maps cost by 85% and minimized occurrences of misrouted parcels
- Enhanced loyalty programs (points collection, points redemption, membership) and promo features that helped achieve ~28% of average monthly growth over the last 6 months
- Supported the development of insurance service which allows users to add shipping insurance and manage the insurance claim process directly from Anteraja's mobile app

Kearney – Management Consultant (Jakarta, Indonesia)

Jan'19 – Sep'20

- Strategy development and implementation for one of the largest healthcare SOE in Indonesia to improve company's bottom-line performance
 1. Operational efficiency and productivity improvement
 - o Conducted baselining/as-is assessment of manufacturing plants and develop strategy to improve overall productivity
 - o Implemented strategies through a pilot program, built an end-to-end dashboard for performance monitoring and enabled analytics-driven decision making
 2. Retail profitability improvement
 - o Developed customer-centric format strategy approach for its retail network of over 1200 stores
 - o Conducted root cause analysis and internal benchmarking of the stores to improve profitability
- Identified cost savings opportunities and improvement areas in procurement operating model for state-owned companies in Indonesia as a part of cost diagnostics program appointed by the Ministry of State-Owned Enterprises
- Conducted a deep dive consumer research to understand Indonesian consumers' behavior and perception toward digitalization across fin-tech, health-tech, ed-tech, e-commerce and transportation/delivery sectors
